

Evaluation Rubric – Promotional Video

Interactive Security Training Platform (ISTP)

NoTech Deliverable · SW7 Draft

Module IT.PM4 · Spring Semester 2026 · ZHAW School of Engineering

Team:	Biedermann Linus, Calabrese Davide, Hoffmann Lorenz, Kaiser Jan, Schaub Alex, Seeberger Alessio
Product:	Promotional video (founder-style talking head)
Target audience:	University instructors and IT administrators
Scale:	1 – 5 points per criterion (1 = inadequate, 5 = excellent)
Total:	100 points (20 criteria × 5 points)

1 · Content & Structure

#	Criterion	Evaluation Aspect	Points (1–5)
1	Problem presentation	The gap between theoretical and practical security education is clearly explained and made tangible for the viewer.	
2	Solution presentation	ISTP's core concept (self-hosted, Kubernetes-based CTF platform) is introduced concisely and comprehensibly.	
3	Value proposition	The benefits for universities (free, on-premises, privacy-compliant, academic workflow integration) are convincingly communicated.	
4	Narrative arc	The video follows a logical structure (problem → solution → value) with a clear opening hook and a memorable closing.	

Subtotal: ____ / 20

2 · Visual Design & Camera

#	Criterion	Evaluation Aspect	Points (1–5)
1	Camera perspective & framing	Appropriate shot sizes are chosen (e.g. medium close-up for talking head); framing is intentional and consistent.	
2	Lighting & image quality	Sufficient lighting without harsh shadows on the face; no visible noise or focus issues.	
3	Visual variety	Effective use of B-roll / cut aways (e.g. screen recordings, UI demos, campus shots) to support the narration.	

Subtotal: ____ / 15

3 · Audio

#	Criterion	Evaluation Aspect	Points (1–5)
1	Voice clarity & recording quality	Speech is clearly audible, well-articulated, and free of distortion; external microphone use is evident.	
2	Background noise & room tone	No distracting ambient noise; silent passages are covered by music or appropriate sound design.	
3	Music & sound design	Background music (if used) supports the mood without overpowering the voice; volume levels are balanced.	

Subtotal: ____ / 15

4 · Language & Expression

#	Criterion	Evaluation Aspect	Points (1–5)
1	Word choice & register	Vocabulary is precise, audience-appropriate (instructors / IT admins), and free of unnecessary jargon.	
2	Grammar & fluency	Sentences are grammatically correct; delivery is fluent and natural without excessive filler words.	
3	Persuasiveness & engagement	The speaker conveys credibility and enthusiasm; the tone is direct and inviting (founder-style).	

Subtotal: ____ / 15

5 · Editing & Montage

#	Criterion	Evaluation Aspect	Points (1–5)
1	Pacing & rhythm	The video maintains an appropriate tempo; no scenes feel rushed or unnecessarily drawn out.	
2	Transitions & cut quality	Cuts are clean and frame-accurate.	
3	Title & text overlays	Titles are legible and use an appropriate font and style.	
4	Credits	The video has a clear credit roll/card at the end listing all contributors and sources.	

Subtotal: ____ / 20

6 · Overall Impression

#	Criterion	Evaluation Aspect	Points (1–5)
1	Professionalism & polish	The video looks and feels like a finished product, not a rough draft.	

2	Target audience fit	The video effectively addresses instructors and IT administrators; it would motivate them to explore ISTP further.	
3	Memorability & call to action	The viewer retains the key message after watching; the video includes a clear next step (e.g. link, QR code, contact).
